Markon accelerates digital transformation through **systems engineering**, **AI/ML**, and **DevSecOps** expertise—modernizing enterprise systems, enhancing performance, and delivering agile, secure, and scalable technologies built for resilience.

IT Governance & Risk Management

We advance IT governance and portfolio management to help agencies improve oversight, ensure accountability, and align technology investments with mission and enterprise priorities.

- Agile Project & Portfolio Management
- Digital Transformation & Readiness
- Enterprise Service Management
- AI Governance & Ethical AI Adoption (NIST AI RMF, ISO/IEC 42001)
- Data Quality & Risk Management
- Cloud Lifecycle Management

IT Infrastructure & Operations

Markon develops and sustains applications, administers Linux and enterprise environments, delivers responsive service desk support, and engineers robust network, cloud, and systems solutions that keep missions running seamlessly.

- Software & API Development
- Application Deployment & Sustainment
- Linux & Infrastructure Administration
- Service Desk & Technical Support
- Network & Cloud Architecture & Implementation
- Systems Engineering & Operations

Digital Transformation & Innovation

We partner with federal clients to innovate and securely integrate emerging technologies—such as AI/ML, cloud, and automation—into complex enterprise environments, accelerating mission modernization and performance.

- DevSecOps Automation
- Mission-to-Business-Case Translation
- Non-Traditional Acquisition & Rapid Prototyping Support
- Technology Scouting
- Automation Toolkits (RPA, ML, SaaS)
- Applied Innovation Management (ISO 56002-Aligned)

IT Training & Digital Enablement

We design and deliver IT training and adoption strategies that empower digital workforces, enhance technology performance, and sustain the efficiency, security, and reliability of mission-critical systems.

- Technology Adoption & Digital Workforce Enablement
- Customized Software & Application Training
- Technical Writing & Documentation
- Training Needs Assessments & Curriculum Design
